MESSAGE FROM THE CHAIR

Dear Friends,

On behalf of the American Society for Bariatric and Metabolic Surgery, Canadian Chapter (ASMBS-C), I am honoured to extend this invitation, to my colleagues in the field of obesity and related disorders, to attend the 3rd International Consensus Conference on Duodenal Switch (ICCDS 2018) scheduled for May 17-18, 2018 at the Palais des congrès de Montréal. ICCDS 2018 is being held as a Pre-Conference Workshop in conjunction with the Canadian Association of Bariatric Physicians and Surgeons (CABPS) annual Conference.

ICCDS 2018 will feature 8 live surgeries from world-leading expert operators. The scientific content is brimming with talks from renowned international leaders who will share their expertise on Duodenal Switch and its variants. The presentations promise to be interactive and you will be able to engage with world-renowned bariatricians. The program is varied with live surgeries, didactic sessions and interesting surgical videos. Delegates will have an opportunity to network with the Faculty during the “Meet the Faculty Reception” on Thursday evening - we hope this forum provides an opportunity for you to acquire new information that you can apply to your practice and for you to catch up with colleagues and friends.

Montréal is known for its rich heritage and culture. Its unique combination of Old World charm and North American energy, Montréal is celebrated for its cultural spirit and easygoing nature; it also offers an ideal destination for both business and pleasure. We encourage you to extend your stay in Montréal and to enjoy the culinary and cultural attractions. Visit our website to discover Montréal!

We look forward to seeing you there!

Sincerely,

Michel Gagner

Michel Gagner, MD, FRCSC, FACS, FASMBS
Professor of Surgery, Herbert Wertheim School of Medicine, FIU
Senior Consultant, Hôpital du Sacré-Cœur, Montréal
